

PACKAGE OVERVIEW

At Your Service

If you're looking for more support throughout the planning process, the Full Service Planning package would be your ideal choice.

This is for the clients who don't have the time, resources, or desire to plan on their own. We work with you from start to finish and would be available to help you with every aspect of wedding planning.

This includes all of the services included in the "Save The Date" and "Partial Planning" packages in addition to more involvement, support, and responsibilities. We will be present in your meetings and communication with them, and all the details that come with it. You tell us your vision and we'll help make it happen.

This will also mean that we'll be there to help with decision making, and keeping you on track according to the timelines we set in our checklist. We'll have periodic check-ins and be in constant contact to ensure that nothing is missed and you're up-to-date with where you should be in the planning.

We'll treat your big day as if it were our own, ensuring that everything goes seamlessly and according to your vision. Our goal is always to allow you to relax and simply enjoy every minute of your day with your loved ones to the fullest extent.
